Opinions Over Time

Notes: (1) Figure shows the volume & proportion of opinions (by type) authored by the Court between the 2005 and 2025 terms. Data from earlier terms were retrieved from the Supreme Court Database. Opinions delivered *per curiam* are coded as a majority opinion, while special concurrences (*in part*) and those concurring in judgment are both coded as concurrences. (2) The Stat Pack only focuses on “Opinions of the Court” and not “Opinions Relating to Orders,” the latter of which includes several of the cases on the emergency docket. (3) *Goldey v. Fields* (24-809) was decided *per curiam* on June 30, 2025 and was not included in the OT2024-25 Stat Pack.

Unanimity

Description: This figure shows the percentage of unanimous decisions (i.e., cases decided without any full dissents) between OT05-OT25. These include decisions reached per curiam without any noted dissents. Dashed red line represent longitudinal average (#%)

Notes:

Frequency in the Majority – All Cases

Description: Figure shows the percentage of cases where each justice was in the majority coalition among all cases that they participated in (including those decided *unanimously*, *per curiam*, or *dismissed as improvidently granted*).
Notes: (1)

Frequency in the Majority – Non-Unanimous Cases

Description: Figure shows the percentage of cases where each justice was in the majority coalition among cases decided without a unanimous majority.

Notes: (1)

Frequency in the Majority – Closely Divided Cases

Description: Figures show the percentage of cases where each justice was in the majority coalition among cases decided by (5-4) or (6-3) coalitions.
Notes: (1)

Justice Agreement – All Cases

Description: Figure shows the relative agreement (percent) in voting alignment shared between justices in all cases where justices participated during the 2025 term.

Notes: (1) Agreement can be understood as justices similarly aligning in the majority (or dissenting) coalition – where those who concur (*fully, in part, or in judgment*) are similarly considered as part of the majority.

Justice Agreement – Closely Divided Cases

Description: Figure shows the relative agreement (percent) in voting alignment shared between justices in cases decided by (5-4) or (6-3) coalitions in the 2025 term.

Notes: (1) Agreement can be understood as justices similarly aligning in the majority (or dissenting) coalition – where those who concur (*fully, in part, or in judgment*) are similarly considered as part of the majority.
